IDEAL-IST

Ideal-IST - your global Partner Search and
Support Network for your ICT Projects

About Ideal-IST

- Ideal-IST: SSA in IST CALL 6, FP6 co-ordinated by DLR (DE)
- Project duration: 24 M, starting on Oct, 01st 2006
- 50 Partners from EU and others
- Support the participation of organisations of all types in ICT FP7
- Special focus on Newcomers & SMEs incl.
 - New Member States
 - Associated Countries
 - 3rd Countries (INCO)

Ideal-IST Consortium

ICT National contact point Network of 50 Partners

- 27 Member States (12 NMS),
- 5 Western Balkan Countries
- 3 Newly Independent States
- 4 Caucasian Countries
- 5 Associated Countries
- 5 Mediterranean Countries

Ideal-IST services

- Higher chances to succeed the evaluation, as your proposal will be quality checked and better focused on the ICT objectives.
- Continuous support from the National Contact Points Network during the whole life of the process.
- Fast way of completing your consortium, as you will receive the first replies within days - or even hours!
- The service provides an average of 36 responses per Partner Search, coming from all parts of Europe (or even the world) and types of organizations.
- You will be able to close the Partner Search as soon as you find appropriate partners, avoiding the reception of further responses.
- The success rate for finding appropriate partners is 92%.
- Ideal-ist will provide you a personal space to store and manage all the information related to your partner searches and the responses generated, keeping at any time your privacy.

ICT Call 1

ICT Call 1 (6 Challenges) Call identifier: [FP7-ICT-2007-1](#)

Open: 22nd December 2006
Deadline: to be advised

Instruments

Budget M€

Challenge 1 - Pervasive and trusted network and service infrastructures

1. The network of the future	CP, NoE, CSA	171
2. Service and software architectures, infrastructures and engineering	CP, NoE, CSA	102
3. ICT in support of the networked enterprise	CP, CSA	26
4. Secure, dependable and trusted infrastructures	CP, NoE, CSA	77
5. Networked media	CP, NoE, CSA	73

Challenge 2 - Cognitive systems, interaction and robotics

1. Cognitive systems, interaction, robotics	CP, NoE, CSA	82
---	--------------	----

Challenge 3 - Components, systems and engineering

1. Next generation nanoelectronics components and electronics integration	CP, NoE, CSA	73
2. Organic and large-area electronics and display systems	CP, NoE, CSA	54
3. Embedded systems design	CP (STREP only), NoE, CSA	34
4. Computing systems	CP (STREP only), NoE	21

ICT Call 1 ...

Challenge 4 - Digital libraries and content		
1. Digital libraries and technology-enhanced learning	CP, NoE, CSA	44
2. Intelligent content and semantics	CP, NoE, CSA	44
Challenge 5 - Sustainable and personalised healthcare		
1. Personal health systems for monitoring and point-of-care diagnostics	CP (IP only), CSA	60
2. Advanced ICT for risk assessment and patient safety	CP, CSA	26
Challenge 6 - Mobility, environmental sustainability and energy efficiency		
1. ICT for the intelligent vehicles and mobility services	CP, CSA	49
Challenge 7 - Independent living and inclusion		
1. ICT and ageing	CP, CSA	26
Future and emerging technologies (FET)		
Open scheme		
1. Nano-scale ICT devices and systems	CP, CSA (CA only)	17
2. Pervasive adaptation	CP, CSA (CA only)	17
3. Bio-ICT convergence	CP, CSA (CA only)	17
Horizontal support actions		
International cooperation	CSA	6

3 ways to participate

Three ways of using Ideal-IST:

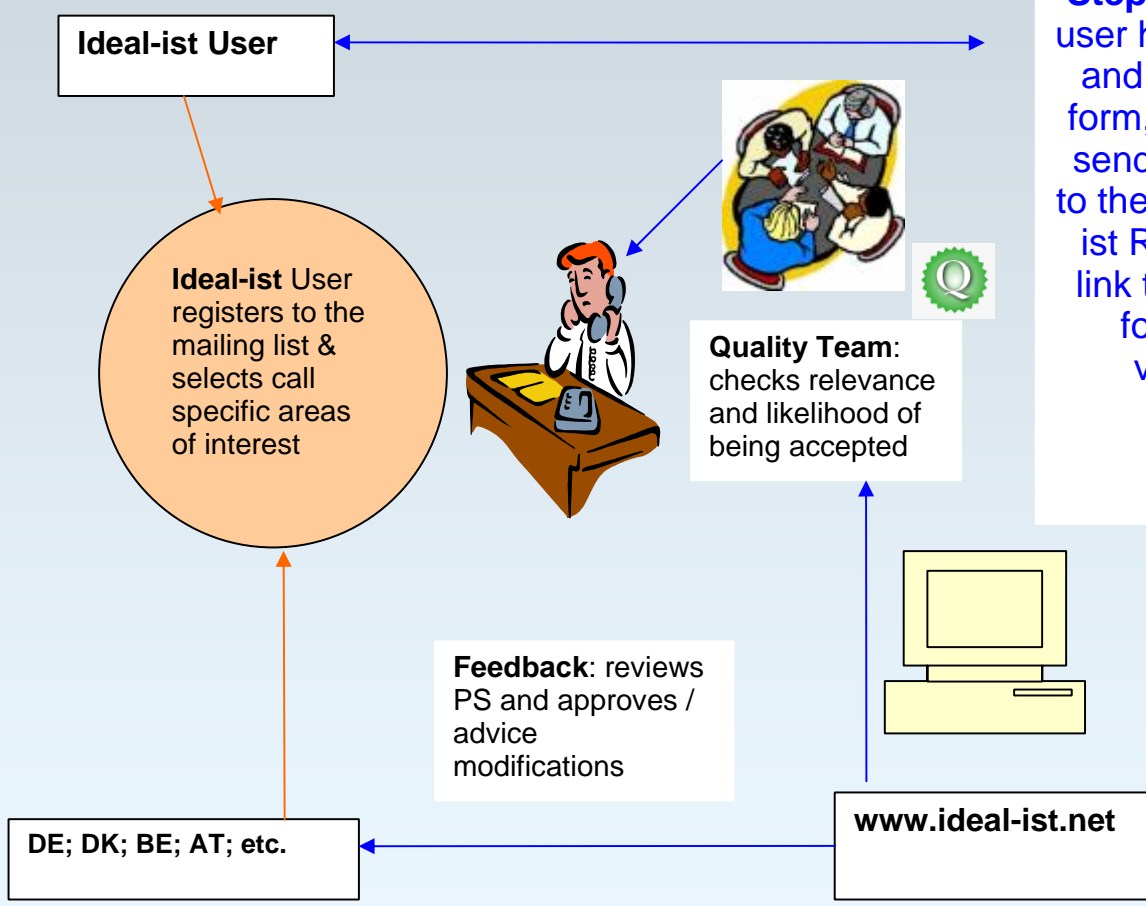

- Proactively launching your own Partner Search, in those cases when you already have a project idea and need to complete your consortium.
- Proactively launching a take-up action for a competitive call, in those cases where you look for additional partners in your running IP or NoE project.
- Subscribing to the ideal-ist mailing lists to be informed of any opportunity arising to join a forming consortium in your areas of interest, then checking your compliance with the partner profiles sought and filling in an Expression of Interest to apply.

How does the Partner Search Work?

Step 1 The user wishes to insert a new Partner Search on www.ideal-ist.net

Step 2 After the user has inserted and saved the form, the server sends an email to the local Ideal-ist Rep. with a link to the form for him to validate

Step 3 Web page creation of the accepted proposal and submission to the Ideal-ist network

<http://www.ideal-ist.net/partner-search/partner-search-procedure>

What can Ideal-ist do for you?

- Find partners for your ICT project idea
Your project idea will be distributed to over 55.000 international contacts interested in the ICT programme.
Our network provides appropriate partners within weeks - or even days - with a success rate of almost 100% and an average of 36 responses per partner search!
- Help you to join other partner searches
Your national Ideal-ist representative keeps you regularly informed about partner searches. [Simply register your interest.](#)
- Find services for helping you succeed in your ICT project
Ideal-ist puts at your fingertips services provided in your country by other projects, associations and networks to help you succeed in FP7.
- Keep you updated on the ICT Programme
- Support you on your way to a successful proposal
At international information events and thematic workshops we keep you updated on the ICT Programme.
We provide quick and effective insight on how the ICT programme works. We help you understand both the challenges and opportunities available and much more
- Inform you on relevant ICT events

Ideal-ist Mailing List Subscription

This Service allows Subscribers to be regularly informed on Call, Challenge and Objective specific Partner Searches within the ICT Theme of the Seventh Framework Programme submitted to the Ideal-ist Network of National Contact Points.

Partner Searches are submitted by Proposers who wish to submit a project proposal and are in the process of building their consortium looking either for partners and/or for a coordinator in case they do not want to coordinate the project themselves. Proposers may be from any country in the World.

Please indicate your areas of interest in the ICT Theme and your personal details. This information will be automatically redirected to the national Ideal-ist Representative who manages the Database of Subscribers at a national level.

The Subscription to the Mailing List is free of charge. Thank you for your interest.

The Ideal-ist Team.

Partner Search

How do I use the Partner Search Service?

Ideal-ist provides you with a sophisticated Partner Search Service. The Ideal-ist network creates opportunities to find partners to build a consortium for your ICT project.

- Register as a Proposer to launch your Partner Search or a Competitive Call, choose "New Proposer?"
- Login on the right if you are a registered Proposer to start your own Partner Search or Competitive Call
- Look for Open Partner Searches
 - [View all](#)
 - [Search for specific Partner Searches](#)
- Look for Competitive Calls

 - [Search for specific Competitive Calls](#)

Partner Search - General Information

The Ideal-ist Partner Search Facility will help you finding partners for your ICT project idea under the 7th Framework Programme of the European Union (2007-2013), working in a proactive way: your National Ideal-ist Representative (in cooperation with the ideal-ist Quality Assurance and Assessment) will help you to publish your partner search in a ICT Call and objective-specific way before publishing and distributing it to the more than 50 partner and association contacts in 27 countries (gathering more than 55,000 international contacts interested in the ICT Programme, through our mailing lists). This will provide you the following benefits:

- Higher chances to succeed the evaluation, as your proposal will be quality checked and better focused on the ICT objective
- Continuous support from the National Contact Points Network during the whole life of the process.
- Fast way of completing your consortium, as you will receive the first replies within days - or even hours!

ICT Proposers' Day - 1 February, 2007

A chance to meet Ideal-ist! The proposer's day is a one day event to help ICT researchers respond to the calls for proposals under the work programme 2007/2008 of the 7th Framework Programme for R&D.

2007-01-16

A typical partner search

Watch out for the
quality certificate

PROJECT DESCRIPTION

Proposal Outline:

GIASIP creates a tool for satisfaction of needs in scientific, technological and design fields on the basis of innovations implantation and what's more an advantage of the project is high efficiency of this tool as networked information and analytical system (NIAS).

GIASIP allows to remove the informational and administrative barriers for innovations realization in global scale, including European region, to optimize support policy of networked enterprises (especially in the fields of: science and technologies, technology transfer, intellectual property rights, legislation, taxation, cooperation and others), to improve interaction between all interested (in European competitiveness increasing) parties and to increase practical advantage of scientific and technological progress.

GIASIP develops new concept of highly efficient NIAC creation presented as combination of new ideas and scientific and technological beginning.

To achieve stated goal following activities have to be carried out:

- - methodology of highly efficient NIAC development;
- - meaning and demand indexes subsystem development;
- - inquiry and offering dynamic profiles development;
- - information relevancy dynamic coefficients revelation;
- - weighting coefficients determination mechanism development;
- - development of subsystem for innovations values on-line frame (from minimum to maximum) estimation on the base of analysis of competitive areas in countries of innovations realization;
- - development of algorithm for innovations values increasing decision-making support;
- - methodology of knowledge (presented in network) protection development;
- - factor of intellectual monopolization of certain scientific and technological and design trends in certain countries development;
- - analytical format of information development and monitoring;
- - methodology of new informational standards development.
-
- Having a great experience also in the field of system-defined and conceptual intellectual property objects development and their international registration we are going to get some strong intellectual property rights for GIASIP for being made consortium.

Keywords:

- innovations and technologies transfer, information relevance, data mining, middleware, intellectual property rights management and insurance

Typical partner search ...

PARTNER PROFILE SOUGHT

Required skills and Expertise:

- Informational infrastructure for network development, including protocols. Gateways, platforms, operation system, interconnections, middleware etc.
- Data mining.
- Art design of user interfaces.
- Development of on-line consulting service in innovations transfer, including legislation, economics, intellectual property rights insurance and management, license management etc.
- Innovation web-stock exchange development and management.
- Venture enterprise worldwide establishment and management.
- Standardization in the fields of information and telecommunication.

Description of work to be carried out by the partner(s) sought:

- R&D in the field of network: operation systems, platforms, interconnections
- Friendly user's interface development
- Intellectual property rights management and insurance web-system development
- Technical regulations in the field of ICT development

Type of partner(s) sought:

- - Companies and Institutes, involved in networked R&D activities;
- - Institutes, involved in the field of standardization (technical regulations) of ICT;
- - Venture and insurance companies and funds

RUSSIAN PARTNERS FOR ICT PROGRAMME
Information Society Technologies

Идеал-ист - глобальная служба поиска партнеров

Идеал-ист – глобальная служба поиска партнеров и поддержки ваших проектов в области ICT

Чем Ideal-ist может вам помочь?

- Найти партнеров для реализации вашего проекта ICT

Ваша заявка на участие в проекте будет разослана входящим в базу данных Ideal-ist заинтересованным в международном сотрудничестве коллективам, которых на сегодняшний день насчитывается 55 тысяч.

С вероятностью практически 100% в ближайшие несколько недель, а иногда и дней, Вы найдете партнеров для дальнейшей работы. В среднем 35 коллективов проявляют интерес к каждой заявке.

- Войти в консорциумы для участия в европейских проектах ICT

Вы будете получать регулярную информацию по поиску партнеров. Для этого необходимо просто зарегистрироваться на сайте www.ideal-ist.net

- Найти необходимую информацию для успешной реализации вашего проекта ICT

Благодаря развитию информационной сети проекта Ideal-ist в вашем распоряжении будет вся необходимая информация по участию в европейских проектах 7 Рамочной программы.

- Предоставлять последнюю информацию по 7 Рамочной программе ЕС.
- Содействовать в подготовке и подаче вашей заявки на участие в Конкурсах ICT.
- Информировать о мероприятиях в области ICT.

Открытые объявления по поиску партнеров

Новости:

26.12.2006 :: Открыта регистрация экспертов для участия в экспертизе заявок 1 Конкурса ICT. [Подробнее...](#)

26.12.2006 :: 2 февраля 2007 в Кельне (Германия) состоится информационный день по тематическому приоритету "Информационные и коммуникационные технологии" 7 Рамочной программы Евросоюза.
