

Abstract
for HSE University's Student Research Papers
Competition in History

The following works will be accepted for the Competition in History:

- national and world history (all regions) and periods from the ancient times to the beginning of the 21st century;
- history of the national and world art (also including all regions and periods);
- source studies, theory and history of historical studies.

The works should succinctly formulate the research problem, encompass a wide range of the most representative analysis of the historiography of the subject matter under consideration and rely on a certain corpus of historical sources.

Types and kinds of the sources under consideration are not limited, however, the selection of materials should be substantiated and consistent with goals and objectives of the work, as well as take into account specific aspects of the available source base.

The assessment of the work should be specially focused on the accuracy of citing (including footnotes, as well as the list of sources and bibliography).
